### **Our Client's Say:**

“As executive director of an international organization, I needed to set some rules. I have been a leader most my life but never knew there **were** rules. Robert taught me the "rules". Now, I am not talking about Robert's rules of order, these are a different set of Robert's rules. When you hold people accountable, things get done. Asian countries have a pride about doing what they say they will do when they say they will do it. It causes them shame which is a big deal to them. Americans often fall short and feel it is not a big deal if they just don't do something they were assigned or volunteered to do. I would hear things like, "I forgot, I was busy". These excuses that are not acceptable. Learn how to generate a

team that you can count on. “

Dawn Ewing, Executive Director  
International Academy of Biological Dentistry and Medicine

“Leadership course by Legacy was an awakening for me that allowed me to realize possibilities that I never thought possible. By far one of the most pivotal experiences I have ever had.”

Dave Warwick, Dentist and member of the IAOMT

"The leadership training gave me a solid technology for handling concerns or problems in the office. Most dental offices have more women than men therefore, there is a lot of extra verbal communication that takes place and sometimes it gets exaggerated and mixed up. We love to have meeting where we begin with "What's So" and we take it from there. Thank you ROBERT." I will not be able to attend because I will be in Hawaii perfecting my ukulele playing.

Blanche Grube, Dentist and member of the IABDM
